

I believe it is very important to have independent news coverage, not one or two companies controlling what we hear. If the FCC lets just a few persons control the information the American people hear, we will have lost one of the most important benefits of the freepress, Truth. Having the American people hear only one side of the story will remove any checks and balances that are left. I do not support and will vote and fight against any person or group who will try and take my right to hear the truth.

James R. Scalf
